

Please do not allow LPFM to displace FM stations. Air 1 (90.3 & 90.7 in my area) is a necessity to allow listeners an alternative to acid rock and rap. Since Air 1 is funded by donations, they rely on translators to spread the wonderful music they play. It's a positive influence on today's generation. We have plenty of mainstream stations around here but only one Air 1. Please don't change it!

Sincerely,

Lori McGinty
